Bonus Features

Cops N Robbers Slot – Free Spins Bonus Round

The game has two different bonus rounds, which lead to free spins. Having free spins means you can score more wins with just a single deposit. The way to unlock the first free spins is by simply landing the Scatters. This just gives you more free spins to use, which will continue automatically. For every win you get on the free spins, the score multiplies, increasing your total winnings. Keep landing Scatters to keep the free spins going. The free spins will end after a certain time. The number of spins you receive will be randomized.

The second type of bonus round is the Chase mini-game. This will trigger the special animation where the player takes control of a police car and drives after the robbers. The game itself acts as a board game. The player will have up to three throws of the dice. The cop will begin driving after you make your third throw. This will determine where you land on the board and what multiplier you will receive.

If you land on the ID Parade, you will be forced to play a separate game. You must pick one of three outcomes. Once decides that you win, one lets you continue playing the board game, and the other will let you claim an additional prize. Cops and Robbers slots free play includes the same bonuses as the real version. Our team will include further information should you require it.

Theme

The main theme of the Cops and Robbers slot machine game is based on the imaginative concept of children. In this game, one set of kids would play as the cops, and the other set will play the robbers. To win, the cops simply need to chase and catch the robbers. However, this slot game uses this theme in the literal sense. It creates a cartoon world where the real cops end up chasing the real robbers. The bonus games even involve a car chase. Depending on if they get caught or not will determine the big wins you receive.

Symbols and Graphics

Many of the symbols are based on police officers, bank robbers, and even judges. The basic symbols which award standard prizes are the five main card numbers. This includes a 10, an Ace, a Jack, a Queen, and a King. The Wild of the Game is based on a pitbull, a classic symbol of the UK police.

The very title of the game will serve as the Scatter, which unlocks the bonus rounds.

RTP and Variance

The RTP rating for Cops and Robbers is around 95.2%. This places it on an average rating making it perfect for new gamblers. The variance is set from low to medium. This means that the risk is quite low, but so are the rewards. This is what makes it a great entry for those new to gambling. The RTP and volatility remain the same for Cops and Robbers slot machine free play.
